**Get To Know Me:** A volunteer spent some time with Nova, and here's what they said: "Nova is a lovely momma who is ready for a home of her own! She was a bit timid coming out of the kennel and was generally on the shy side. She didn't seem to pay any of the others dogs much attention and was just curious to go outside. She walked well, albeit a little timid, on the leash, and mostly did her own thing out in the yard. I think a home outside the shelter would really help her open up!"

## Important Info About Me: Heartworm Positive

**Get To Know Me:** Give a warm welcome to Violet #MASA12402! This sweet four-year-old grey & white girl came to MAS as a stray from the 38128 area on April 5 and has patiently waited for a new home ever since! Violet spent time with a volunteer over the weekend, and here's what they said about her:

"I was lucky enough to choose Violet as a playmate today! This beautiful girl walked well on her leash with me and did her business promptly in the yard. She is pretty calm and well-behaved! At first, she was a bit shy getting pets from me, but she warmed up quickly and enjoyed some back scratches! From what I could tell, she liked to watch the other dogs play and seemed interested in them. Violet is a sweet baby, just waiting for the right human to choose her!"

Violet had a meet & greet on 05/01/22. Violet spent a while outside with a family and three kids. Violet loved to be petted and was very tolerant with the kids she interacted with in the age range of two-five years old.

Violet was a part of a playgroup on 5/3/22. She was social and friendly but liked to keep to herself. She is very sweet and likes to hang out with the people in the yard. She has a gentle & dainty playstyle.

Violet was a part of a playgroup on 4/28/22. She was friendly but mostly kept to herself. She was unbothered and appropriate when approached.

Violet was a part of a playgroup on 4/27/22. She was friendly, social, chill, and mostly kept to herself.

If you're interested in adopting, fostering, or rescuing 49 lb. Violet, email [mas@memphistn.gov](mailto:mas@memphistn.gov) or meet her at the shelter anytime during our daily visiting hours of 12-4 pm!

**Get To Know Me:** Meet Oakley (#MASA23646), the Perfect Companion!

Looking for a new furry friend? Look no further!

Oakley is a calm-natured canine with a heart full of love. Whether he's leisurely strolling through the park or simply exploring the great outdoors, he enjoys his time outside and has a patient demeanor that shines through.

One of Oakley's greatest qualities is his friendliness towards children. He adores their company and never misses a chance to play and interact with them. Plus, he's a social butterfly when it comes to other dogs! So, if you already have a furry companion at home, Oakley would be thrilled to have a playmate!

Oakley's previous foster parent described him as incredibly sweet and lovable, and we couldn't agree more! His affectionate nature is bound to melt your heart and make every day brighter.

He is estimated to be 1 year old, weighs 44 pounds, and is currently heartworm positive.

If you'd like info on the steps to adopt Oakley, you can also click "Apply for Adoption" to send us an inquiry!

---

A staff member took Oakley #MASA23464 out for a morning stroll this week, and his gentle soul shone through! They said, "This sweet boy was waiting at the front of his kennel, his tail wagging as I greeted him. No jumping or barking, just pure calmness as I leashed him up."

**Get To Know Me:** Carol Brady #37667 was found near South Pkwy and I55. She arrived with 5 puppies who are available for adoption. Carol is approximately 2 years old and 42 lbs. She is heartworm negative.

A volunteer gave Carol Brady a bath, and she was an absolute sweetheart during the whole thing! She acts tough around her babies (such a good mama!), but once we bribed her with a couple treats she quickly decided we were best friends! She allowed us to pick her up and bathe her and she even got some playful zoomies once she was all clean. This momma has done such a good job raising her pups and is now in need of a loving home of her own to be spoiled!

After just a few weeks, Carol Brady has become quite the socialite! When we took her out, she was ready to go and tugged excitedly on the leash to get to the yard. She went potty right away and it seems like she might even know how to "sit". She's grown into a very affectionate and playful girl who would love to be out of the shelter!

**Get To Know Me:** Here's what a volunteer said about Canela: "What a sweetheart. A momma dog who wanted to sit in our laps. Loves to give hugs. Gently lifts herself up (not really jumping on you) just lifting so she can look in your eyes. Does not pull on her leash. She would be a great dog for someone."

Another volunteer spent some time with Canela, and they noted that this girl knows how to "sit" and "come" on command. She's an affectionate, medium-energy girl, and she's sweet both in and out of the kennel. She also appeared politely interested in the nearby dogs.

Two staff members took out Toby #38392 and Canela for an "unofficial" dog test:

Each dog was in a separate play yard, but the yards were next to one another. Both dogs were really well-behaved. After taking care of some business and sniffing around a bit, they greeted each other nose-to-nose through the fence. Both dogs were appropriate, had loose body posture, and low tail wags.

**Get To Know Me:** A volunteer spent some time with Delilah, and here's what they said: "Delilah is a lovely lady! She had great kennel presence and walked well on the leash. Once we were outside, she did her business right away! I also learned that she knows how to sit for a treat! She's fairly independent and was happy to do her own thing in the yard, and was medium energy. She did enjoy running along the fence with the dog next door!"

Another volunteer noted that Delilah is a very happy girl both in and out of the kennel, and loved playing fetch with her toys!

Delilah attend playgroup on 7/24. She had very high energy coming into the yard and most of her interactions were friendly and appropriate. She did get overwhelmed with high energy dogs, and started to redirect on a dog that wouldn't take her corrections. She then started to chase said dog, and started to growl and neck at him while he tried to avoid conflict. The handlers started to intervene and she would not listen so she was removed from the yard. I would say her playstyle is gentle dainty and may be overwhelmed with rough/rowdy playstyles.

**Get To Know Me:** A volunteer spent some time with Teisha, and here's what they said:

"Teisha is an adorable, lovable puppy with very good manners for her young age. She walked by barking dogs with her tail wagging and never barked in return. Outside she loved being petted and getting side rubs. She even laid next to me sat in my lap when I sat on the ground.

When two other dogs came out, she ran to the fence to greet them and ran right back to me. She is wiggly but not mouthy. She has puppy energy but is also mild mannered. When we went back inside her tail wagged while other dogs barked. She also walked by people politely while her tail wagged as she made people smile. What a wonderful dog."

**Get To Know Me:** A volunteer spent some time with Josephine, and here's what they said: "Josephine is the perfect puppy with so much love to give! She's a wiggly, happy girl both in and out of her kennel, and she walked very nicely on the leash despite clumsy puppy paws! As soon as we were in the yard I could tell she had the perfect silly, playful puppy energy. She's affectionate and loves getting her belly rubbed and giving you puppy kisses! She is also working on learning "sit" and seems like she'd be a breeze to train. She loved interacting with me and loved playing with toys. She also seemed interested in playing with the other dogs nearby. Overall, Josephine is the perfect pup!"

I used Josephine to help me out with a dog test today. She did really well with greeting the dog at the gate. She had a loose body language and an excited wag in her tail. She gave the dog kisses through the fence as well. When the other dog entered the yard her and the other dog ran to each other with full energy Josephine didn't like that and gave a correction to the other dog. The other dog did listen and they went back to playing after that. Josephine has a rough and rowdy play style but I really think she would prefer the handlers. She spent more time trying to get attention for me and the other handler than playing with the other dog.

**Get To Know Me:** A volunteer spent some time with Horseshoe, and here's what they said: "Horseshoe is such a smart, friendly and well behaved dog. When we walked past the kennels to go outside, he greeted dogs in the kennels even while some barked at him. He knows how to sit when asked and loves treats in return. When I sat he would stand next to me and lean in to give dog hugs. He did his business outside and his kennel is clean, so he may be potty trained.

When we walked inside he listened to me and stayed close as we walked past several people. He showed again how he can sit when asked. He is very curious and looked out the window several times to observe the people outside. He is very handsome and looks like he would be such a loyal, fun member of a loving family. "

Once we let her in the yard, she immediately caught the zoomies as she led a herd around the yard trying to keep up with her. She was friendly and social with a rough/rowdy playstyle. She greeted everyone that entered the yard and very tolerant of the other pups jumping all over her. She was definitely the life of the party. She is a playgroup rockstar!

This sweet girl has what appears to be a happy tail and is currently being treated; Update 7/16 This girl's happy tail is all healed and doing well. We will keep watching for it to happen again as she is full of tail wags.

Here's what a volunteer wants you to know about Allie:

"Allie is such an energetic, happy puppy. After she ran around the yard, she was very affectionate.

"Allie is so calm in her kennel, but once she was outside, she enjoyed running around the yard. She would run to the fence to greet people and dogs. When she greeted other dogs, she would crouch down with her tail wagging and become very vocal.

"When I sat in the yard, she ran right to me, loving being petted and getting side rubs. She is adorable. She loves to explore, greet people, and receive loving affection."
